QA Testing Playbook

Comprehensive Test Plan for Six Testers

Version 1.0 | July 2026

Application URL: <https://schoolos-production-be7b.up.railway.app>

Backend API: <https://schoolos-production-be7b.up.railway.app/api/v1/>

How to use this document

Each tester is assigned a set of test cases covering a specific part of the system. Work through your section in order. For every test case, follow the steps exactly, compare the result against the expected outcome, then tick Pass or Fail. If something fails, write down what actually happened in the Notes column. Take a screenshot of any bug you find.

Test the app on both desktop Chrome and a mobile phone. Most pages are designed for mobile first, so check that buttons, tables, and forms work properly on small screens.

All test accounts and passwords are listed at the end of this document.

Table of Contents

Tester 1: Authentication & Admin Dashboard	3
Tester 2: Academic Management & Exam Workflow	8
Tester 3: Finance, Operations & Compliance	14
Tester 4: Teacher Portal (All 7 Pages)	19
Tester 5: Parent Portal (All 6 Pages)	24
Tester 6: API, Public Pages, Government & Mobile	28
Test Account Reference Table	33
Bug Report Template	34

Tester 1: Authentication & Admin Dashboard

You are responsible for testing the login system and the main admin dashboard. This covers all three login portals (admin, teacher, parent), JWT token handling, session persistence, the dashboard KPI cards, school health indicators, the action center, quick access grid, audit trail, and the admin settings page including profile editing.

1A. Login Portals

Test Cases: Admin Login

T1.01: Admin login with correct credentials

Steps: Go to /login/admin. Enter admin@saintjoseph.sos and admin123456. Click Login.

Expected: Redirected to /admin/dashboard. User name appears in the sidebar. Token stored in localStorage.

☐ Pass ☐ Fail

T1.02: Admin login with wrong password

Steps: Go to /login/admin. Enter admin@saintjoseph.sos and wrongpass. Click Login.

Expected: Error message displayed. No redirect. Token not stored.

☐ Pass ☐ Fail

T1.03: Admin login with empty fields

Steps: Go to /login/admin. Leave both fields empty. Click Login.

Expected: Form validation prevents submission. Error hints shown on both fields.

☐ Pass ☐ Fail

T1.04: Admin login with Greenfield credentials

Steps: Go to /login/admin. Enter admin@greenfield.edu.cm and admin123456. Click Login.

Expected: Redirected to admin dashboard. School name shows Greenfield International Academy. Data is scoped to Greenfield only.

☐ Pass ☐ Fail

Test Cases: Teacher Login

T1.05: Teacher login with correct credentials

Steps: Go to /login/teacher. Enter dr.song@saintjoseph.sos and teacher123456. Click Login.

Expected: Redirected to /teacher/dashboard. Teacher name and greeting appear.

☐ Pass ☐ Fail

T1.06: Teacher cannot access admin pages

Steps: After logging in as teacher, manually navigate to /admin/dashboard in the address bar.

Expected: Redirected back to /teacher/dashboard or shown an access denied message.

☐ Pass ☐ Fail

Test Cases: Parent Login

T1.07: Parent login with correct credentials

Steps: Go to /login/parent. Enter parent@saintjoseph.sos and parent123456. Click Login.

Expected: Redirected to /parent/dashboard. Ward cards for all three children appear.

☐ Pass ☐ Fail

T1.08: Parent cannot access admin or teacher pages

Steps: After logging in as parent, navigate to /admin/dashboard and /teacher/dashboard.

Expected: Both redirect back to /parent/dashboard.

☐ Pass ☐ Fail

Test Cases: Session & Token**T1.09: Session persistence after browser refresh**

Steps: Log in as admin. Refresh the page (F5).

Expected: Still logged in. Dashboard loads without re-login prompt.

☐ Pass ☐ Fail

T1.10: Logout clears session

Steps: Log in as admin. Click logout. Then try to access /admin/dashboard directly.

Expected: Redirected to login page. Token removed from localStorage.

☐ Pass ☐ Fail

T1.11: JWT refresh token works

Steps: Log in as admin. Wait 10+ minutes or manually expire the access token. Perform any action.

Expected: Token refreshes silently. Action succeeds without re-login.

☐ Pass ☐ Fail

1B. Admin Dashboard Home

T1.12: Dashboard loads with correct KPI values

Steps: Log in as admin@saintjoseph.sos. Go to the dashboard.

Expected: Four KPI cards show: Students (3), Teachers (3), Attendance, Fees. Numbers match database.

☐ Pass ☐ Fail

T1.13: KPI cards are clickable

Steps: Click the Students KPI card.

Expected: Navigates to the student registry or academic management page.

☐ Pass ☐ Fail

T1.14: School Health section displays progress bars

Steps: Scroll to School Health section on dashboard.

Expected: Progress bars for Attendance Rate, Fee Collection, and Audit Trail are visible with percentage labels.

☐ Pass ☐ Fail

T1.15: Action Center shows urgent and suggested items

Steps: Look at the What Needs Your Attention section.

Expected: At least one urgent or suggested action card is shown. Cards have action buttons.

☐ Pass ☐ Fail

T1.16: Quick Access grid has 8 shortcuts

Steps: Look at the Quick Access section.

Expected: 8 shortcut buttons are visible, each navigating to a different admin module.

☐ Pass ☐ Fail

T1.17: Activity and Audit Trail loads

Steps: Scroll to the Activity and Audit Trail section.

Expected: Recent log entries appear with timestamp, user, action, and module columns.

☐ Pass ☐ Fail

T1.18: Audit Trail export produces CSV

Steps: Click the Export Audit button.

Expected: A CSV file downloads with audit log data. Open it and verify columns.

☐ Pass ☐ Fail

T1.19: New Registration button works

Steps: Click the New Registration button on the dashboard.

Expected: Navigates to the student registration form.

☐ Pass ☐ Fail

1C. Admin Settings & Profile

T1.20: Settings page loads with sidebar navigation

Steps: Navigate to admin settings.

Expected: Six sidebar sections visible: Profile, Branding, Academic Structure, Security, Billing, Integrations.

☐ Pass ☐ Fail

T1.21: Profile photo upload works

Steps: Go to Profile section. Click the photo upload area. Select a JPG image.

Expected: Photo preview updates. After save, the sidebar avatar also updates.

☐ Pass ☐ Fail

T1.22: Edit name and phone

Steps: Change first name to a new value. Change phone number. Click Save.

Expected: Toast notification says saved successfully. Refresh page, values persist.

☐ Pass ☐ Fail

T1.23: Edit email

Steps: Change the email address to a new valid email. Save.

Expected: Changes are saved. Old email no longer works for login.

☐ Pass ☐ Fail

T1.24: Language preference toggle

Steps: Switch default language setting. Save.

Expected: Setting persists after page refresh.

☐ Pass ☐ Fail

T1.25: Email alerts toggle

Steps: Toggle email alerts on/off. Save.

Expected: Toggle state persists after refresh.

☐ Pass ☐ Fail

T1.26: Branding preview updates live

Steps: Go to Institution Branding section. Change primary color.

Expected: Preview card updates the color in real time.

☐ Pass ☐ Fail

1D. Announcements & Communications**T1.27: Create an announcement for teachers**

Steps: Go to Communications. Click Compose Announcement. Set audience to Teachers. Type a title and body. Toggle urgent on. Click Publish.

Expected: Announcement appears in the published list with an urgent badge.

☐ Pass ☐ Fail

T1.28: Announcement visible to teachers

Steps: Log in as a teacher. Check the dashboard announcements panel.

Expected: The announcement you just created appears. Urgent badge is visible if you toggled urgent.

☐ Pass ☐ Fail

T1.29: Announcement not visible to parents

Steps: Log in as parent. Check the dashboard.

Expected: The teacher-only announcement does not appear.

☐ Pass ☐ Fail

T1.30: Send a direct message

Steps: Go to Communications. Use Quick Message. Select a recipient. Type subject and body. Click Send.

Expected: Message is sent. Recipient can see it in their messages.

☐ Pass ☐ Fail

Tester 1 total: 30 test cases. Move on to the next section when done.

Tester 2: Academic Management & Exam Workflow

You are testing the entire academic pipeline from setup through to report card generation. This includes creating academic years, terms, and sequences; managing classes and subjects; the exam workflow pipeline; mark entry windows; mark filling analytics; ID card generation; student promotion; timetables; and curriculum coverage. Use the Saint Joseph Bilingual Academy school (admin@saintjoseph.sos).

2A. Academic Setup

T2.01: Academic Setup page loads with 4 tabs

Steps: Go to Academic Management, then Academic Setup.

Expected: Four tabs visible: Academic Years, Terms, Classes & Grade Levels, Curriculum Subjects.

☐ Pass ☐ Fail

T2.02: Create a new Academic Year

Steps: Click Academic Years tab. Enter name 2026/2027, start date Sep 1 2026, end date Jun 30 2027. Click Initialize Year.

Expected: New year appears in the list with Active status.

☐ Pass ☐ Fail

T2.03: Create a Term under the new year

Steps: Click Terms tab. Select the new academic year. Enter name First Term, order 1. Save.

Expected: Term appears in the list linked to the correct year.

☐ Pass ☐ Fail

T2.04: Create a Class

Steps: Click Classes tab. Enter name Form 4, select cycle, set level order. Deploy.

Expected: Class appears in the class list.

☐ Pass ☐ Fail

T2.05: Create a Subject

Steps: Click Subjects tab. Enter name Computer Science, set coefficient 2.0, mark as compulsory. Save.

Expected: Subject appears in the list with correct coefficient.

☐ Pass ☐ Fail

2B. Exam Workflow Pipeline (Critical Path)

This is the most important flow in the entire application. The pipeline goes: Create Sequences for each term, then Open Mark Entry Windows, let teachers enter marks, Close the windows, then Generate Report Cards.

T2.06: Exam Workflow page loads with term cards

Steps: Go to Academic Management, then Exam Workflow. Select academic year and class.

Expected: Term cards appear showing Sequence 1 and Sequence 2 for each term with step status indicators.

☐ Pass ☐ Fail

T2.07: Create sequences for all terms

Steps: For each term that has no sequences, click the Create Sequences button.

Expected: Sequences are created. The step cards update from pending to ready state.

☐ Pass ☐ Fail

T2.08: Open mark entry window for Sequence 1, Term 1

Steps: On the Sequence 1 card for Term 1, click Open for Marks.

Expected: Window opens. Status changes to Active. The button changes to Close Sequence.

☐ Pass ☐ Fail

T2.09: Verify teacher can see the open window

Steps: Log in as dr.song@saintjoseph.sos. Check the dashboard.

Expected: An Open Mark Windows section appears showing the window you just opened.

☐ Pass ☐ Fail

T2.10: Close mark entry window

Steps: Log back in as admin. Go to Exam Workflow. Click Close Sequence on the active window.

Expected: Window closes. Status changes to Done.

☐ Pass ☐ Fail

T2.11: Generate Report Cards button activates

Steps: Close all sequences for the term. Check the Generate Report Cards button.

Expected: The button becomes enabled (clickable) only when all sequences in the term are closed.

☐ Pass ☐ Fail

T2.12: Generate Report Cards

Steps: Click Generate Report Cards. Confirm in the modal.

Expected: Report cards are generated. Success message appears.

☐ Pass ☐ Fail

T2.13: Share with Parents toggle

Steps: On a sequence card, toggle Share with Parents to on.

Expected: Toggle state saves. Parents can now see marks for that sequence.

☐ Pass ☐ Fail

2C. Mark Filling Analytics

T2.14: Mark Filling tab shows fill rates

Steps: Go to Academic Analytics. Click the Mark Filling tab.

Expected: KPI cards show Fill Rate percentage, Filled count, Pending count, Total Assignments.

☐ Pass ☐ Fail

T2.15: Pending teachers are listed

Steps: In the Mark Filling tab, check the pending list.

Expected: Teachers who have not entered marks are listed with their name and subject.

☐ Pass ☐ Fail

T2.16: Notify All Pending button works

Steps: Click Notify All Pending.

Expected: A notification is sent to all pending teachers. Button count updates.

☐ Pass ☐ Fail

2D. Student Registration & ID Cards

T2.17: 3-step student registration form

Steps: Go to Academic Management. Click Add New Student.

Expected: Multi-step form appears: Step 1 Demographics, Step 2 Academic Placement, Step 3 Verification.

☐ Pass ☐ Fail

T2.18: Complete a student registration

Steps: Fill in first name, last name, DOB, gender on Step 1. Click Next. Select class and stream on Step 2. Click Next. Review on Step 3. Confirm.

Expected: Student is created. Appears in the student registry.

☐ Pass ☐ Fail

T2.19: ID Card Generator loads

Steps: Go to Academic Management, then ID Card Generator.

Expected: Page loads with Individual/Batch toggle and student selection list.

☐ Pass ☐ Fail

T2.20: Generate a single ID card

Steps: Select Individual mode. Pick a student. Click Generate ID Card.

Expected: ID card preview appears showing front and back with student photo, name, class, and school logo.

☐ Pass ☐ Fail

2E. Student Promotion

T2.21: Promotion preview shows correct decisions

Steps: Go to Student Promotion. Select a source class. Set minimum average. Click Preview.

Expected: Table shows each student with their average and a PROMOTED or REPEATED badge.

☐ Pass ☐ Fail

T2.22: Execute promotion moves students

Steps: Click Execute Promotion. Confirm.

Expected: Students marked PROMOTED move to the next class. Those marked REPEATED stay.

☐ Pass ☐ Fail

2F. Timetable Management

T2.23: Create a timetable

Steps: Go to Timetables. Click Create Timetable. Select class and term. Create.

Expected: Timetable card appears in the grid.

☐ Pass ☐ Fail

T2.24: Timetable grid displays slots

Steps: Open a timetable that has time slots.

Expected: Weekly grid shows Monday to Friday with time slots, subjects, teachers, and rooms.

☐ Pass ☐ Fail

2G. Curriculum Coverage

T2.25: Schemes of Work table loads

Steps: Go to Curriculum Coverage.

Expected: Table shows schemes with subject, class, progress bar, and status badge.

☐ Pass ☐ Fail

2H. Academic Analytics

T2.26: School Overview tab KPIs

Steps: Go to Academic Analytics. School Overview tab.
Expected: KPI cards show Overall Average, Pass Rate, Students Assessed, Subjects. Grade distribution chart visible.
☐ Pass ☐ Fail

T2.27: Subject Analysis shows per-subject data

Steps: Click the Subject Analysis tab.
Expected: Table shows each subject with average, pass rate, highest score, lowest score.
☐ Pass ☐ Fail

T2.28: Class Analysis shows per-class comparison

Steps: Click the Class Analysis tab.
Expected: Table shows each class with average, pass rate, student count.
☐ Pass ☐ Fail

T2.29: Filters narrow results

Steps: Change the Academic Year filter. Then change the Term filter.
Expected: Data in all tabs updates to reflect the selected year and term.
☐ Pass ☐ Fail

Tester 2 total: 29 test cases.

Tester 3: Finance, Operations & Compliance

You are testing the financial system (fees, invoices, payments, arrears, expenses), the operations center (teacher directory, faculty management, discipline, transfers), attendance tracking, and the compliance center. Log in as admin@saintjoseph.sos.

3A. Fee Setup

T3.01: Fee Setup page loads with Categories and Structures tabs

Steps: Go to Finance, then Fee Setup.

Expected: Two tabs visible: Categories and Structures.

☐ Pass ☐ Fail

T3.02: Create a fee category

Steps: Click Categories tab. Enter name Laboratory Fee. Toggle mandatory on. Save.

Expected: Category appears in the list.

☐ Pass ☐ Fail

T3.03: Create a fee structure

Steps: Click Structures tab. Select category, select target class, enter amount 500. Save.

Expected: Structure appears with correct amount and class.

☐ Pass ☐ Fail

T3.04: Delete a fee category

Steps: Click the delete icon on a fee category you just created. Confirm.

Expected: Category is removed from the list.

☐ Pass ☐ Fail

3B. Invoice Management

T3.05: Generate invoices for a class

Steps: Go to Invoice Management. Click Generate tab. Select class, set due date. Batch Generate.

Expected: Invoices are created for all students in that class. Status shows unpaid.

☐ Pass ☐ Fail

T3.06: Invoice list shows correct data

Steps: Click List tab.

Expected: Table shows invoice number, student name, amount, status (unpaid/paid/partial), due date.

☐ Pass ☐ Fail

T3.07: Send payment reminder

Steps: Click Send Reminder on an unpaid invoice.

Expected: Confirmation that reminder was sent.

☐ Pass ☐ Fail

3C. Record Payments

T3.08: Record a cash payment

Steps: Go to Record Transaction. Select an unpaid invoice. Enter amount, select Cash, enter reference. Record.

Expected: Payment is recorded. Receipt is generated. Invoice status updates to paid or partial.

☐ Pass ☐ Fail

T3.09: Record a mobile money payment

Steps: Select another unpaid invoice. Enter amount, select Mobile Money, enter transaction reference. Record.

Expected: Payment recorded with mobile money method. Invoice balance reduces.

☐ Pass ☐ Fail

T3.10: Overpayment is rejected

Steps: Try to record a payment amount larger than the invoice balance.

Expected: Error message: amount exceeds outstanding balance.

☐ Pass ☐ Fail

3D. Student Ledger & Arrears

T3.11: Student Ledger shows payment history

Steps: Go to Student Ledger. Select a student.

Expected: Fee summary shows total paid, total billed, balance. Transactions table lists all payments.

☐ Pass ☐ Fail

T3.12: Arrears page lists overdue invoices

Steps: Go to Arrears Management.

Expected: Unpaid invoices past their due date are listed with student name, amount, and days overdue.

☐ Pass ☐ Fail

3E. Expenses

T3.13: Record an expense

Steps: Go to Expenses. Click New Expense. Enter category, amount, description, date. Save.

Expected: Expense appears in the list. Total expenses updates.

☐ Pass ☐ Fail

T3.14: Create expense category

Steps: Go to Categories tab. Enter name Utilities. Save.

Expected: Category appears in the category list.

☐ Pass ☐ Fail

3F. Operations Center & Teacher Directory

T3.15: Operations Center loads with navigation cards

Steps: Go to Operations.

Expected: Four navigation cards: Faculty Directory, Add Faculty, Performance and Leave, Discipline and Transfers.

☐ Pass ☐ Fail

T3.16: Teacher Directory shows all teachers

Steps: Click Faculty Directory.

Expected: List of teachers with avatar, name, email, and active/inactive status badge.

☐ Pass ☐ Fail

T3.17: Search teachers by name

Steps: Type a teacher name in the search box.

Expected: List filters to show only matching teachers.

☐ Pass ☐ Fail

T3.18: Toggle teacher active/inactive

Steps: Click the status toggle on a teacher.

Expected: Status changes. Teacher no longer appears in active lists if toggled off.

☐ Pass ☐ Fail

T3.19: Add new faculty member

Steps: Click Add Faculty. Fill in all fields (name, email, department, qualification, subject, class). Register.

Expected: New teacher appears in the directory.

☐ Pass ☐ Fail

3G. Performance Reviews & Leave

T3.20: Leave request table loads

Steps: Go to Performance and Leave.

Expected: Leave requests table shows teacher, dates, reason, and status (pending/approved/rejected).

☐ Pass ☐ Fail

T3.21: Approve a leave request

Steps: Click Approve on a pending leave request. Enter approval reason.

Expected: Status changes to approved.

☐ Pass ☐ Fail

T3.22: Create a performance evaluation

Steps: Click New Evaluation. Select teacher, enter score and comments. Save.

Expected: Evaluation appears in the performance reviews list.

☐ Pass ☐ Fail

3H. Discipline and Transfers

T3.23: Log a discipline incident

Steps: Go to Discipline and Transfers. Click Log Incident. Select category, enter description, action taken. Save.

Expected: Incident appears in the discipline records list.

☐ Pass ☐ Fail

T3.24: Submit a transfer request

Steps: Click New Transfer. Select destination school, enter reason. Submit.

Expected: Transfer request appears with pending status.

☐ Pass ☐ Fail

T3.25: Approve a transfer request

Steps: Click Approve on a pending transfer.

Expected: Status changes to approved.

☐ Pass ☐ Fail

3I. Attendance Dashboard

T3.26: Attendance stats are displayed

Steps: Go to Attendance Dashboard.

Expected: Stats cards show total sessions, attendance rate, present count, absent count, at-risk count.

☐ Pass ☐ Fail

T3.27: Create an attendance session

Steps: Click Create Session. Select class, subject, teacher, term, date, start time. Create.

Expected: Session appears in the recent sessions list.

☐ Pass ☐ Fail

3J. Compliance Center

T3.28: Export ministry report

Steps: Go to Compliance Center. Click Export Ministry Report.

Expected: A CSV file downloads with compliance data.

☐ Pass ☐ Fail

T3.29: Performance Reports page loads

Steps: Go to Performance Reports. Select year and term. Generate.

Expected: Report is generated and appears in the list with a download link.

☐ Pass ☐ Fail

3K. Audit Logs

T3.30: Audit Logs page loads with data

Steps: Go to Audit Logs.

Expected: Table shows entries with action badge, module, user, timestamp, status, IP address.

☐ Pass ☐ Fail

T3.31: Search and filter audit logs

Steps: Type a search term. Then filter by module. Then filter by action.

Expected: Results narrow down to match the filters.

☐ Pass ☐ Fail

T3.32: Export audit log as CSV

Steps: Click Export Audit.

Expected: CSV file downloads with all filtered log entries.

☐ Pass ☐ Fail

Tester 3 total: 32 test cases.

Tester 4: Teacher Portal

You are testing every page of the teacher portal. Log in as dr.song@saintjoseph.sos (password: teacher123456). Also test the mobile layout by resizing your browser to 375px width or using Chrome DevTools device mode. Every page should stack vertically and be usable with one hand on a phone.

4A. Teacher Dashboard

T4.01: Dashboard loads with greeting and date

Steps: Log in as dr.song@saintjoseph.sos.

Expected: Greeting shows Good Morning/Afternoon with teacher name and today's date.

☐ Pass ☐ Fail

T4.02: Current class and coverage percentage shown

Steps: Look at the top of the dashboard.

Expected: Current assignment (subject and class) is displayed. Coverage percentage with progress indicator.

☐ Pass ☐ Fail

T4.03: Class Performance Analytics section loads

Steps: Scroll to Class Performance Analytics.

Expected: Term selector and subject breakdown table with average, pass rate, highest, lowest scores.

☐ Pass ☐ Fail

T4.04: Student Rankings table is expandable

Steps: Look at the Student Rankings section. Click Show All.

Expected: Full list of students appears ranked by performance.

☐ Pass ☐ Fail

T4.05: Announcements panel shows teacher-targeted announcements

Steps: Check the announcements panel.

Expected: Announcements sent to teachers (or all) appear here.

☐ Pass ☐ Fail

T4.06: Open Mark Windows panel shows active windows

Steps: Check the Open Mark Windows panel.

Expected: Any mark entry windows that are currently open for this teacher's subjects appear here.

☐ Pass ☐ Fail

T4.07: Navigation shortcuts work

Steps: Click the timetable shortcut.

Expected: Navigates to the timetable page.

☐ Pass ☐ Fail

4B. Assessments (Mark Entry)

T4.08: Assessments page loads with sequence selector

Steps: Go to Assessments.

Expected: Sequence and exam selector tabs are visible. Student list loads.

☐ Pass ☐ Fail

T4.09: Enter a mark for a student

Steps: Type a score (e.g. 15) into the score field for the first student. Save.

Expected: Save indicator shows saved. Score persists after page refresh.

☐ Pass ☐ Fail

T4.10: Enter marks for multiple students

Steps: Enter scores for 3 different students. Save each.

Expected: All three scores save correctly. No data loss.

☐ Pass ☐ Fail

T4.11: Invalid mark is rejected

Steps: Type a score above 20 (the max for French grading system). Save.

Expected: Error message or validation prevents saving an out-of-range mark.

☐ Pass ☐ Fail

T4.12: Comment field works

Steps: Type a comment in the comment field next to a student score. Save.

Expected: Comment saves and persists.

☐ Pass ☐ Fail

T4.13: Switch between sequences

Steps: Click the Sequence 2 tab.

Expected: Student list reloads. Previously entered marks for Sequence 1 are preserved.

☐ Pass ☐ Fail

4C. Teacher Timetable

T4.14: Timetable grid loads

Steps: Go to Timetable.

Expected: Weekly grid shows Monday through Friday with time slots, subjects, classes, and rooms.

☐ Pass ☐ Fail

T4.15: Current day is highlighted

Steps: Check which day column has a highlighted background.

Expected: Today's column is visually distinct from other days.

☐ Pass ☐ Fail

4D. Lesson Planner (5E Model)

T4.16: Planner page loads with 5 sections

Steps: Go to Planner.

Expected: Five sections visible: Engage, Explore, Explain, Elaborate, Evaluate. Each has editable fields.

☐ Pass ☐ Fail

T4.17: Auto-save works

Steps: Type text in the Engage section title field. Wait 3 seconds.

Expected: Auto-save indicator changes from Unsaved to Saving to Saved.

☐ Pass ☐ Fail

T4.18: Data persists after navigation

Steps: Type in the Explain section. Navigate away to Timetable. Come back to Planner.

Expected: The text you typed in Explain is still there.

☐ Pass ☐ Fail

4E. Teaching Logbook

T4.19: Logbook page loads with form fields

Steps: Go to Logbook.

Expected: Form fields visible: Module, Title, Outcomes, Knowledge Covered, Feedback, Homework. Pre-filled with current assignment data.

☐ Pass ☐ Fail

T4.20: Fill and finalize logbook entry

Steps: Fill in all fields. Click Finalize and Sign.

Expected: Entry is saved with a digital signature (hash + date). Status changes to logged.

☐ Pass ☐ Fail

4F. Curriculum Coverage

T4.21: Coverage page loads with modules

Steps: Go to Coverage.

Expected: Module list appears with expandable lessons. Progress bars per module.

☐ Pass ☐ Fail

T4.22: Mark a lesson as complete

Steps: Expand a module. Click the checkbox next to a lesson.

Expected: Lesson is marked complete. Module progress bar updates. Overall progress percentage increases.

☐ Pass ☐ Fail

T4.23: Add a new module

Steps: Click Add Module. Enter module name. Save.

Expected: New module appears in the list with 0% progress.

☐ Pass ☐ Fail

T4.24: Add a lesson to a module

Steps: Expand a module. Click Add Lesson. Enter title. Save.

Expected: Lesson appears under the module.

☐ Pass ☐ Fail

T4.25: Analytics tab shows summary

Steps: Click the Analytics tab.

Expected: Summary shows total modules, total lessons, completed lessons, overall completion percentage.

☐ Pass ☐ Fail

4G. Teacher Settings

T4.26: Settings page loads

Steps: Go to Settings.

Expected: Profile editor loads with teacher's current name, email, phone, and photo.

☐ Pass ☐ Fail

T4.27: Edit teacher profile

Steps: Change first name. Upload a profile photo. Save.

Expected: Changes persist. Avatar updates across the portal.

☐ Pass ☐ Fail

4H. Mobile Responsiveness (Teacher Portal)

T4.28: Dashboard stacks vertically on mobile

Steps: Set browser to 375px width. Load the teacher dashboard.

Expected: All sections stack vertically. No horizontal scrolling. KPI cards fit screen width.

☐ Pass ☐ Fail

T4.29: Mark entry is usable on mobile

Steps: At 375px width, go to Assessments. Enter a mark and save.

Expected: Input fields are large enough to tap. Save button is accessible. No elements overlap.

☐ Pass ☐ Fail

T4.30: Sidebar collapses on mobile

Steps: At 375px width, check the sidebar.

Expected: Sidebar is hidden behind a hamburger menu or collapses to icons. Navigation still works.

☐ Pass ☐ Fail

Tester 4 total: 30 test cases.

Tester 5: Parent Portal

You are testing the parent portal. Log in as parent@saintjoseph.sos (password: parent123456). This parent (Paul Essomba) has 3 children across 2 schools: John Doe at Saint Joseph, Samuel Eyong at Greenfield, and Blessing Ambe at Greenfield. The key thing to test is that the parent can see all three children and switch between them.

5A. Parent Dashboard

T5.01: Dashboard loads with ward cards

Steps: Log in as parent@saintjoseph.sos.

Expected: Dashboard shows ward summary cards for all 3 children with name, class, campus, attendance, and recent grade.

☐ Pass ☐ Fail

T5.02: Financial alerts are visible

Steps: Check the financial alerts panel.

Expected: Shows total amount owed across all children. Links to the fees page.

☐ Pass ☐ Fail

T5.03: Announcements section loads

Steps: Check the announcements panel.

Expected: Announcements sent to parents (or all) appear here.

☐ Pass ☐ Fail

T5.04: Multi-child comparison table shows all children

Steps: If more than one ward exists, check the comparison section.

Expected: A table compares attendance and grades across all children side by side.

☐ Pass ☐ Fail

T5.05: Refresh button reloads data

Steps: Click the refresh button on the dashboard.

Expected: Loading spinner appears briefly. Data reloads with latest values.

☐ Pass ☐ Fail

5B. Child Switcher & Child Detail

T5.06: Sidebar shows all children

Steps: Look at the sidebar or child switcher.

Expected: All 3 children are listed: John Doe, Samuel Eyong, Blessing Ambe.

☐ Pass ☐ Fail

T5.07: Switch to a different child

Steps: Click on Samuel Eyong in the child switcher.

Expected: Dashboard updates to show Samuel's data. His school shows Greenfield International.

☐ Pass ☐ Fail

T5.08: Child Detail page shows subject grades

Steps: Navigate to Child Detail for John Doe.

Expected: Subject grades table shows each subject with score and grade badge for the selected term/sequence.

☐ Pass ☐ Fail

T5.09: Term and Sequence filters work

Steps: On Child Detail, change the term selector. Then change the sequence selector.

Expected: Subject grades update to reflect the selected term and sequence.

☐ Pass ☐ Fail

T5.10: Child Detail for Greenfield students works

Steps: Switch to Blessing Ambe. Go to Child Detail.

Expected: Grades load correctly. Class shows Greenfield data.

☐ Pass ☐ Fail

5C. Parent Fees

T5.11: Fees page loads with summary cards

Steps: Navigate to Fees.

Expected: Summary cards show Total Paid, Total Billed, Outstanding Balance, Unpaid Count.

☐ Pass ☐ Fail

T5.12: Invoice list shows all invoices

Steps: Check the invoice list.

Expected: Invoices for all children appear with status badges (paid/unpaid/partial).

☐ Pass ☐ Fail

T5.13: Pay Now button opens payment modal

Steps: Click Pay Now on an unpaid invoice.

Expected: Payment modal opens with amount field, payment method dropdown, and reference number input.

☐ Pass ☐ Fail

T5.14: Record a payment

Steps: Enter amount, select Mobile Money, enter a reference. Submit.

Expected: Payment is recorded. Invoice status updates. Balance reduces.

☐ Pass ☐ Fail

5D. Parent Analytics

T5.15: Analytics page loads

Steps: Navigate to Analytics.

Expected: Ward selector and term/sequence filters are visible.

☐ Pass ☐ Fail

T5.16: Switch wards in analytics

Steps: Select a different ward from the dropdown.

Expected: Subject scores update to show the selected child's data.

☐ Pass ☐ Fail

T5.17: Overall average is calculated

Steps: Check the overall average display.

Expected: Average matches the mean of all subject scores shown.

☐ Pass ☐ Fail

T5.18: Grade bar visualizations render

Steps: Look at the grade bars next to each subject.

Expected: Bar length corresponds to the score relative to the max (20 for French system).

☐ Pass ☐ Fail

5E. Parent Reports

T5.19: Reports page loads with report card list

Steps: Navigate to Reports.

Expected: Report cards list shows student name, term, date, and a download button.

☐ Pass ☐ Fail

T5.20: Download a report card PDF

Steps: Click Download PDF on a report card.

Expected: A PDF file downloads. Open it and verify it contains the student name, school, subjects, and grades.

☐ Pass ☐ Fail

5F. Parent Settings

T5.21: Settings page loads

Steps: Navigate to Settings.

Expected: Profile editor shows current name, email, phone.

☐ Pass ☐ Fail

T5.22: Edit parent profile

Steps: Change phone number. Save.

Expected: Changes persist after refresh.

☐ Pass ☐ Fail

5G. Cross-School Parent Behavior

T5.23: All 3 children visible regardless of school

Steps: On the dashboard and child switcher, confirm all 3 children appear.

Expected: John Doe (St Joseph), Samuel Eyong (Greenfield), Blessing Ambe (Greenfield) all visible.

☐ Pass ☐ Fail

T5.24: School name shown per child

Steps: Check each child's card or detail page for school name.

Expected: Each child's school name is displayed correctly.

☐ Pass ☐ Fail

5H. Mobile Responsiveness (Parent Portal)

T5.25: Dashboard is usable on mobile

Steps: Set browser to 375px width. Load parent dashboard.

Expected: Cards stack vertically. All text is readable. No horizontal scroll.

☐ Pass ☐ Fail

T5.26: Child switcher works on mobile

Steps: At 375px width, switch between children.

Expected: Switcher is accessible and data updates correctly.

☐ Pass ☐ Fail

T5.27: Fees page is usable on mobile

Steps: At 375px width, go to Fees. Tap Pay Now.

Expected: Payment modal fits the screen. All fields are tappable.

☐ Pass ☐ Fail

Tester 5 total: 27 test cases.

Tester 6: API, Public Pages, Government & Cross-Cutting

You are testing the public-facing pages (no login required), the government portal, backend API endpoints, multi-tenant data isolation, and cross-cutting concerns like error handling and loading states. This is the most technical section.

6A. Public Pages (No Login Required)

T6.01: Landing page loads

Steps: Go to the root URL with no login.

Expected: Landing page renders with school branding, feature highlights, and a call to action.

☐ Pass ☐ Fail

T6.02: Schools list page loads

Steps: Navigate to /public/schools.

Expected: List of registered schools appears with names and basic info.

☐ Pass ☐ Fail

T6.03: School profile page loads

Steps: Click on a school from the list.

Expected: School profile page shows name, address, motto, and available info.

☐ Pass ☐ Fail

T6.04: Enrollment inquiry form works

Steps: Go to the enrollment form. Fill in name, email, message. Submit.

Expected: Form submits successfully. Confirmation message appears.

☐ Pass ☐ Fail

T6.05: Regions page loads

Steps: Navigate to /public/regions.

Expected: List of regions appears with school counts.

☐ Pass ☐ Fail

6B. Government Portal

T6.06: Government login works

Steps: Go to /login/gov. Log in with government credentials.

Expected: Redirected to government dashboard.

☐ Pass ☐ Fail

T6.07: National Dashboard shows aggregate data

Steps: Go to the Government Dashboard.

Expected: Stats show total schools, total students, national attendance rate, performance averages.

☐ Pass ☐ Fail

T6.08: Schools monitoring page loads

Steps: Navigate to Monitoring.

Expected: List of schools with logbook, attendance, and curriculum metrics.

☐ Pass ☐ Fail

T6.09: Compliance page loads

Steps: Navigate to Compliance.

Expected: Compliance scores per school are displayed.

☐ Pass ☐ Fail

6C. Backend API Endpoints

For API testing, use Postman, Insomnia, or your browser's developer tools. First, obtain a JWT token by POSTing to /api/v1/auth/login/ with email and password. Then include the token as Authorization: Bearer <token> in subsequent requests.

Authentication API

T6.10: POST /api/v1/auth/login/ returns JWT

Steps: Send POST to /api/v1/auth/login/ with body {"email":"admin@saintjoseph.sos","password":"admin123456"}.

Expected: Response 200 with access and refresh tokens. Tokens are valid JWT format.

☐ Pass ☐ Fail

T6.11: GET /api/v1/auth/me/ returns user profile

Steps: Send GET to /api/v1/auth/me/ with valid token.

Expected: Response 200 with user email, name, and role info.

☐ Pass ☐ Fail

T6.12: Request without token returns 401

Steps: Send GET to /api/v1/auth/me/ with no Authorization header.

Expected: Response 401 Unauthorized.

☐ Pass ☐ Fail

T6.13: Request with expired token returns 401

Steps: Use an expired JWT token to call /api/v1/auth/me/.

Expected: Response 401. Use refresh token to get a new access token.

☐ Pass ☐ Fail

Academic API

T6.14: GET /api/v1/academic/classes/ returns class list

Steps: Send GET to /api/v1/academic/classes/ with valid token.

Expected: Response 200 with list of classes scoped to the tenant.

☐ Pass ☐ Fail

T6.15: GET /api/v1/academic/subjects/ returns subjects

Steps: Send GET to /api/v1/academic/subjects/.

Expected: Response 200 with subjects including coefficients.

☐ Pass ☐ Fail

T6.16: POST /api/v1/assessments/mark-windows/ creates a window

Steps: Send POST to mark-windows/ with sequence_id and date range.

Expected: Response 201. Window appears in GET list.

☐ Pass ☐ Fail

Students API

T6.17: GET /api/v1/students/ returns student list

Steps: Send GET to /api/v1/students/.

Expected: Response 200. Students are scoped to the current tenant.

☐ Pass ☐ Fail

T6.18: GET /api/v1/students/parent-dashboard/ returns parent data

Steps: Log in as parent. Send GET to parent-dashboard/.

Expected: Response 200 with wards array, alerts, and financial summary.

☐ Pass ☐ Fail

T6.19: Parent cannot see other schools' students

Steps: Log in as parent. Try to access students from a school the parent has no children in.

Expected: Response 403 or empty list.

☐ Pass ☐ Fail

Finance API**T6.20: GET /api/v1/finance/summary/ returns KPIs**

Steps: Send GET to /api/v1/finance/summary/.

Expected: Response 200 with total_collected, total_outstanding, expense totals.

☐ Pass ☐ Fail

T6.21: POST /api/v1/finance/transactions/ records payment

Steps: Send POST with invoice_id, amount, payment_method, reference.

Expected: Response 201. Invoice balance updates.

☐ Pass ☐ Fail

Reports API**T6.22: POST /api/v1/reports/report-cards/generate/ creates a report card**

Steps: Send POST with student_id, term, academic_year.

Expected: Response 201 with report card ID and PDF URL.

☐ Pass ☐ Fail

T6.23: GET /api/v1/reports/report-cards/{id}/download/ returns PDF

Steps: Send GET to the download endpoint for a generated report card.

Expected: Response 200 with Content-Type application/pdf. PDF downloads.

☐ Pass ☐ Fail

6D. Multi-Tenant Data Isolation (Critical)

This is a security requirement. Each school must only see its own data. A teacher at Saint Joseph must never see Greenfield students.

T6.24: Admin of School A cannot see School B students

Steps: Log in as admin@saintjoseph.sos. Fetch /api/v1/students/.

Expected: Only Saint Joseph students (John Doe, Jane Smith, Jean Dupont) appear. No Greenfield students.

☐ Pass ☐ Fail

T6.25: Teacher of School A cannot access School B marks

Steps: Log in as dr.song@saintjoseph.sos. Try to fetch results for a Greenfield student.

Expected: Response 403 or the Greenfield student does not appear in the results.

☐ Pass ☐ Fail

T6.26: Parent sees only linked children

Steps: Log in as parent@saintjoseph.sos. Fetch parent-dashboard.

Expected: Only the 3 linked children appear. No other students from either school.

☐ Pass ☐ Fail

T6.27: Direct API manipulation blocked

Steps: Log in as a teacher. Send a POST to create a student in a different tenant by including a foreign tenant_id.

Expected: Response 403 Forbidden. Student is not created.

☐ Pass ☐ Fail

6E. Error Handling and Edge Cases

T6.28: 404 page for invalid routes

Steps: Navigate to /this-page-does-not-exist.

Expected: A 404 page or redirect to dashboard appears. No blank white screen.

☐ Pass ☐ Fail

T6.29: Network error shows user-friendly message

Steps: Open DevTools, go to Network tab, set to Offline. Try to load the dashboard.

Expected: A friendly error message appears (not a raw exception or blank screen).

☐ Pass ☐ Fail

T6.30: Loading skeletons appear during data fetch

Steps: Navigate to a data-heavy page (e.g. Student Ledger).

Expected: Skeleton loading placeholders appear before the actual data loads.

☐ Pass ☐ Fail

T6.31: Toast notifications appear and auto-dismiss

Steps: Perform a save action (e.g. update settings).

Expected: A toast notification appears in the corner and disappears after about 5 seconds.

☐ Pass ☐ Fail

6F. Cross-Browser and Mobile

T6.32: Works in Chrome

Steps: Open the app in Google Chrome. Navigate through all main pages.

Expected: All pages render correctly. No visual glitches.

☐ Pass ☐ Fail

T6.33: Works in Firefox

Steps: Open the app in Mozilla Firefox. Navigate through all main pages.

Expected: All pages render correctly. No visual glitches.

☐ Pass ☐ Fail

T6.34: Works on mobile Chrome

Steps: Open the app in Chrome on an Android phone.

Expected: All pages load. Navigation works. Forms are usable.

☐ Pass ☐ Fail

T6.35: Works on mobile Safari

Steps: Open the app in Safari on an iPhone.

Expected: All pages load. No iOS-specific rendering bugs.

☐ Pass ☐ Fail

6G. System Health**T6.36: Health endpoint returns OK**

Steps: Send GET to /api/v1/health/.

Expected: Response 200 with status: ok, platform name, and version number.

☐ Pass ☐ Fail

T6.37: Admin System Control page matches health endpoint

Steps: Log in as admin. Go to System Control.

Expected: Status, platform, and version match the /health/ API response.

☐ Pass ☐ Fail

Tester 6 total: 37 test cases.

Test Accounts Reference

Saint Joseph Bilingual Academy

Role	Email	Password	Portal URL
Super Admin	platform@schoolos.sos	admin123456	/login/admin
School Admin	admin@saintjoseph.sos	admin123456	/login/admin
Teacher	dr.song@saintjoseph.sos	teacher123456	/login/teacher
Teacher	dr.thorne@saintjoseph.sos	teacher123456	/login/teacher
Teacher	mme.biya@saintjoseph.sos	teacher123456	/login/teacher
Parent	parent@saintjoseph.sos	parent123456	/login/parent

Greenfield International Academy

Role	Email	Password	Portal URL
School Admin	admin@greenfield.edu.cm	admin123456	/login/admin
Teacher	james.ashi@greenfield.edu.cm	teacher123	/login/teacher
Teacher	fatima.ngwa@greenfield.edu.cm	teacher123	/login/teacher
Teacher	pierre.tamba@greenfield.edu.cm	teacher123	/login/teacher
Parent	grace.foncha@greenfield.edu.cm	parent123456	/login/parent

Paul Essomba (Cross-School Parent)

Login: parent@saintjoseph.sos / parent123456

This parent has children at both schools:

1. John Doe - Saint Joseph Bilingual Academy, Form 1 (father)
2. Samuel Eyong - Greenfield International Academy, Form 1 (guardian)
3. Blessing Ambe - Greenfield International Academy, Form 1 (father)

Bug Report Template

When you find a bug, copy this template and fill it in. Send it to the group chat or add it to a shared spreadsheet.

BUG REPORT

Reported by: [Your name]
 Date: [YYYY-MM-DD]
 Test Case ID: [e.g. T2.08]
 Severity: [Critical / Major / Minor / Cosmetic]
 Module: [Admin / Teacher / Parent / API / Public]
 Page/Endpoint: [URL or page name]
 Browser/Device: [Chrome/Desktop, Safari/iPhone, etc.]

Summary:

[One sentence describing what went wrong]

Steps to Reproduce:

1. [First step]
2. [Second step]
3. [Third step]

Expected Result:

[What should have happened]

Actual Result:

[What actually happened]

Screenshot:

[Attach screenshot if applicable]

Severity Definitions

Severity	Definition	Example
Critical	Blocks core functionality. Users cannot complete	Login fails for all users
Major	Feature is broken but a workaround exists.	Report card PDF is blank but data is correct
Minor	Something is wrong but it does not block the n	Wrong label on a button
Cosmetic	Visual issue only. Does not affect functionality	Color is slightly off

Test Summary Tracker

Use this table to track overall progress across all testers.

Tester	Area	Test Cases	Passed	Failed	Blocked
Tester 1	Authentication & Admin	30	—	—	—
Tester 2	Academic & Exam Workflows	20	—	—	—
Tester 3	Finance, Operations & HR	32	—	—	—
Tester 4	Teacher Portal	30	—	—	—
Tester 5	Parent Portal	27	—	—	—
Tester 6	API, Public, Government & Mobile	37	—	—	—
TOTAL		185	—	—	—

Sign-off

Once all test cases are executed and all Critical and Major bugs are fixed, each tester signs below to confirm their section is complete.
